LexiMaster

Install LexiMaster on any device

A step-by-step guide for Mac, Windows, iPhone, Android phones and tablets. Free, no app store, about one minute.

fissehab.github.io/leximaster

Why install it instead of using a browser tab

Installing puts LexiMaster on your device like any other app. It takes about a minute and costs nothing.

Its own window or full screen

No address bar or browser tabs: just LexiMaster, with its own icon.

One tap to open

An icon on your Home Screen, Dock, Start menu or taskbar.

Your progress is kept safe

iPhone and iPad delete a website's saved data after 7 days without a visit. An installed app keeps it.

Always up to date

New words and fixes arrive by themselves. There is nothing to download again.

Start here

Open this address in your web browser, or scan the code with your phone's camera:

fissehab.github.io/leximaster

Find your device

Every device uses its own web browser. Find your row, then turn to that page for pictures.

Device	Browser	What to tap	Page
Mac or Windows computer	Chrome	Install icon in the address bar, then Install	5
Mac	Safari	File menu, then Add to Dock	6
Windows computer	Microsoft Edge	App available icon in the address bar, then Install	7
iPhone	Safari	Share, then Add to Home Screen, then Add	10
Android phone	Chrome	Menu (three dots), then Add to Home screen, then Install	12
iPad or Android tablet	Safari or Chrome	Same as on the phone	15
Chromebook, Linux, others	Chrome or Edge	Install icon in the address bar	16

01

On a computer

Mac and Windows: install from Chrome, Microsoft Edge or Safari. LexiMaster then opens in its own window.

Confidential - Not for Public Consumption or Distribution

Mac or Windows: Google Chrome

1 **Open Chrome and go to the site**
Type fissehab.github.io/leximaster in the address bar and press Enter.

2 **Click the install icon**
It looks like a small screen with a down arrow, at the right end of the address bar.

3 **Click Install**
A small box asks “Install app?”. Click the blue Install button.

4 **That’s it**
LexiMaster opens in its own window. No icon? Click ⋮ (top right) → Cast, save, and share → Install page as app.

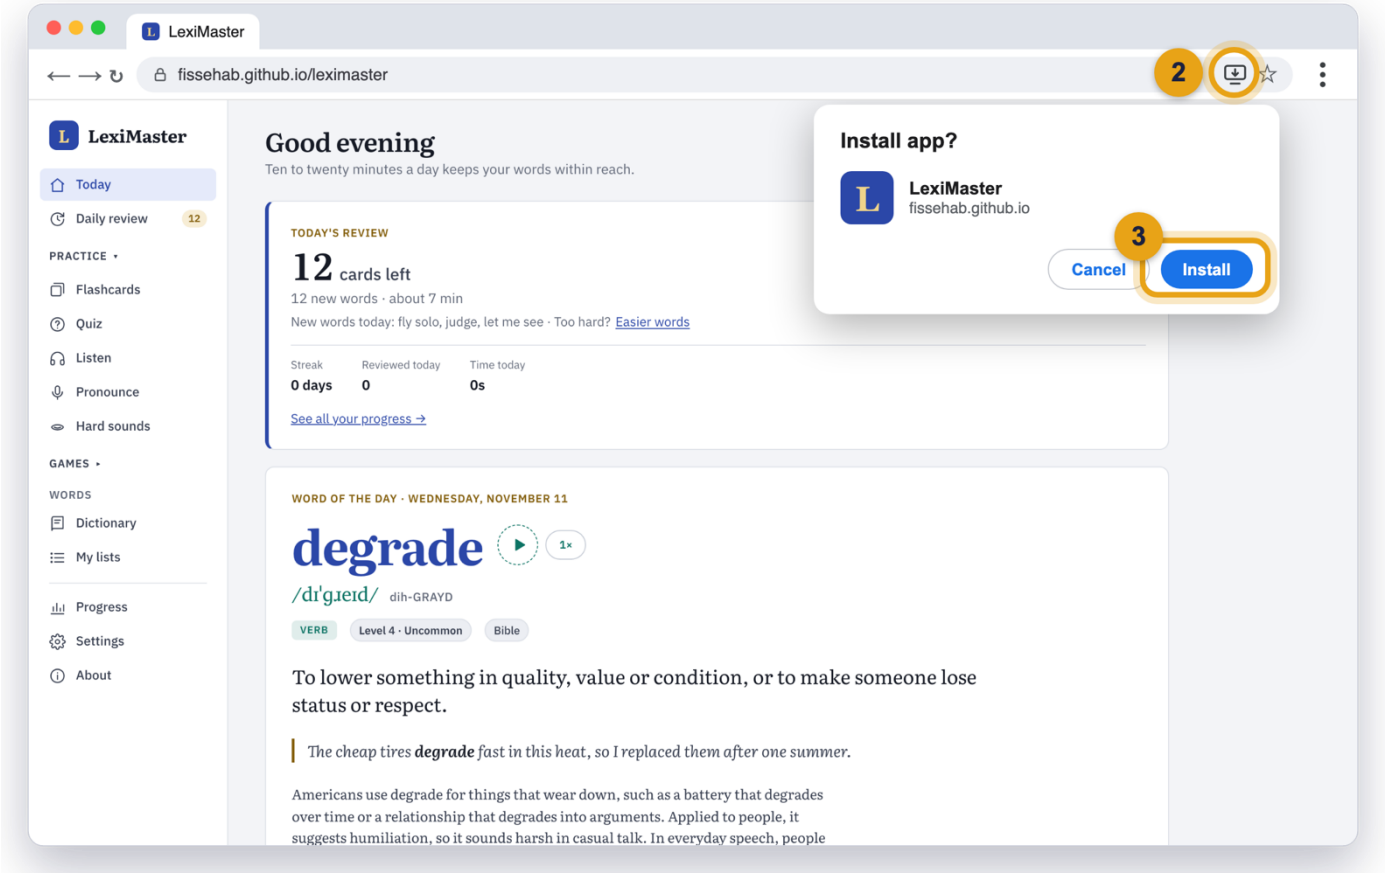

Illustration: the numbered circles match the steps. Your screen may look slightly different.

Confidential - Not for Public Consumption or Distribution

Mac: Safari

1 **Open Safari and go to the site**
Type fissehab.github.io/leximaster and press Return.

2 **Open the File menu**
At the top of the screen, click File, then Add to Dock…

3 **Click Add**
Keep the name LexiMaster and click Add.

4 **Open it from the Dock**
The LexiMaster icon now sits in your Dock and in Launchpad. Needs macOS Sonoma (14) or later.

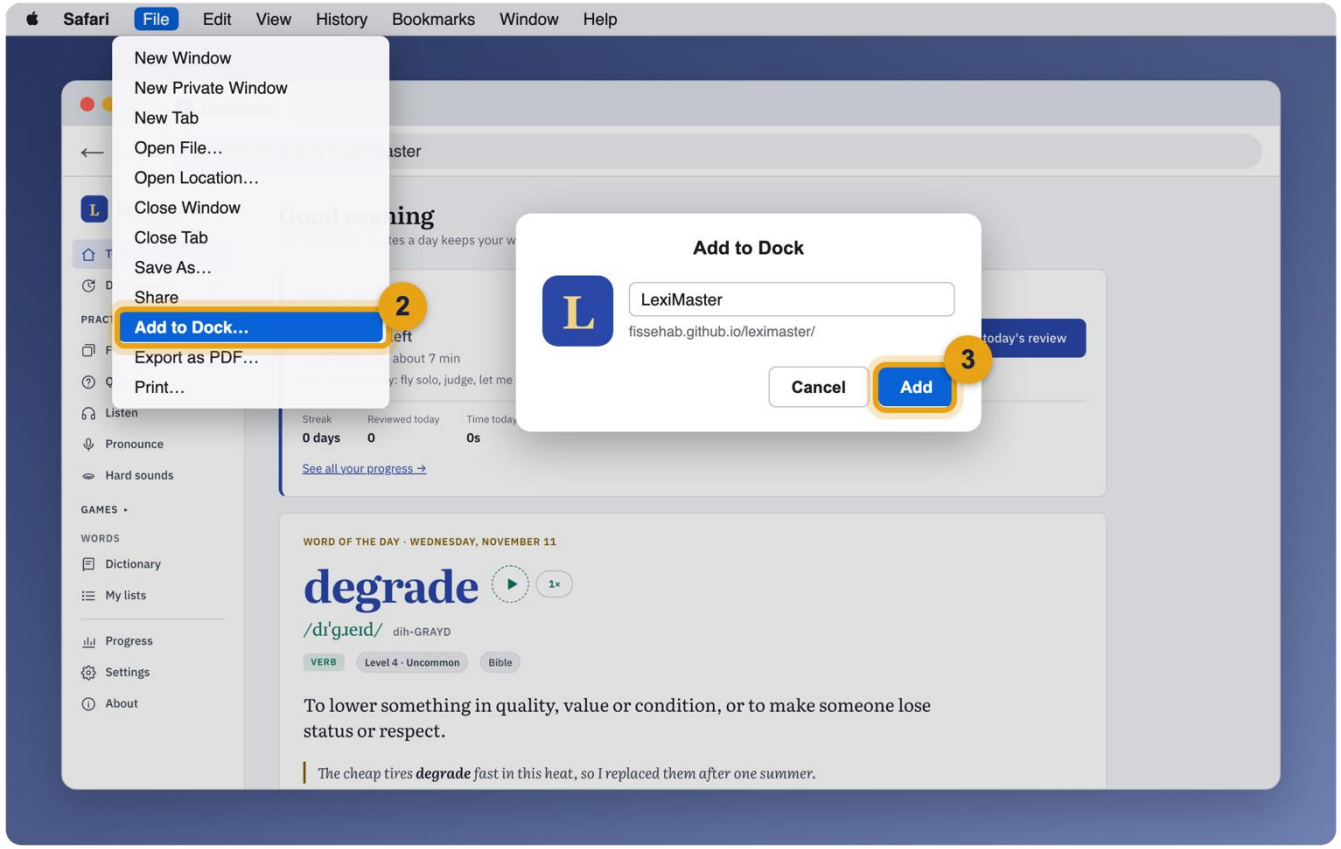

Illustration: the numbered circles match the steps.

Confidential - Not for Public Consumption or Distribution

Windows: Microsoft Edge

1 **Open Edge and go to the site**
Type fissehab.github.io/leximaster in the address bar and press Enter.

2 **Click “App available”**
A small icon of four squares appears at the right end of the address bar.

3 **Click Install**
In the box “Install LexiMaster app”, click Install.

4 **Pin it if you like**
Windows offers to pin it to the taskbar and Start. No icon? Click ··· → Apps → Install LexiMaster.

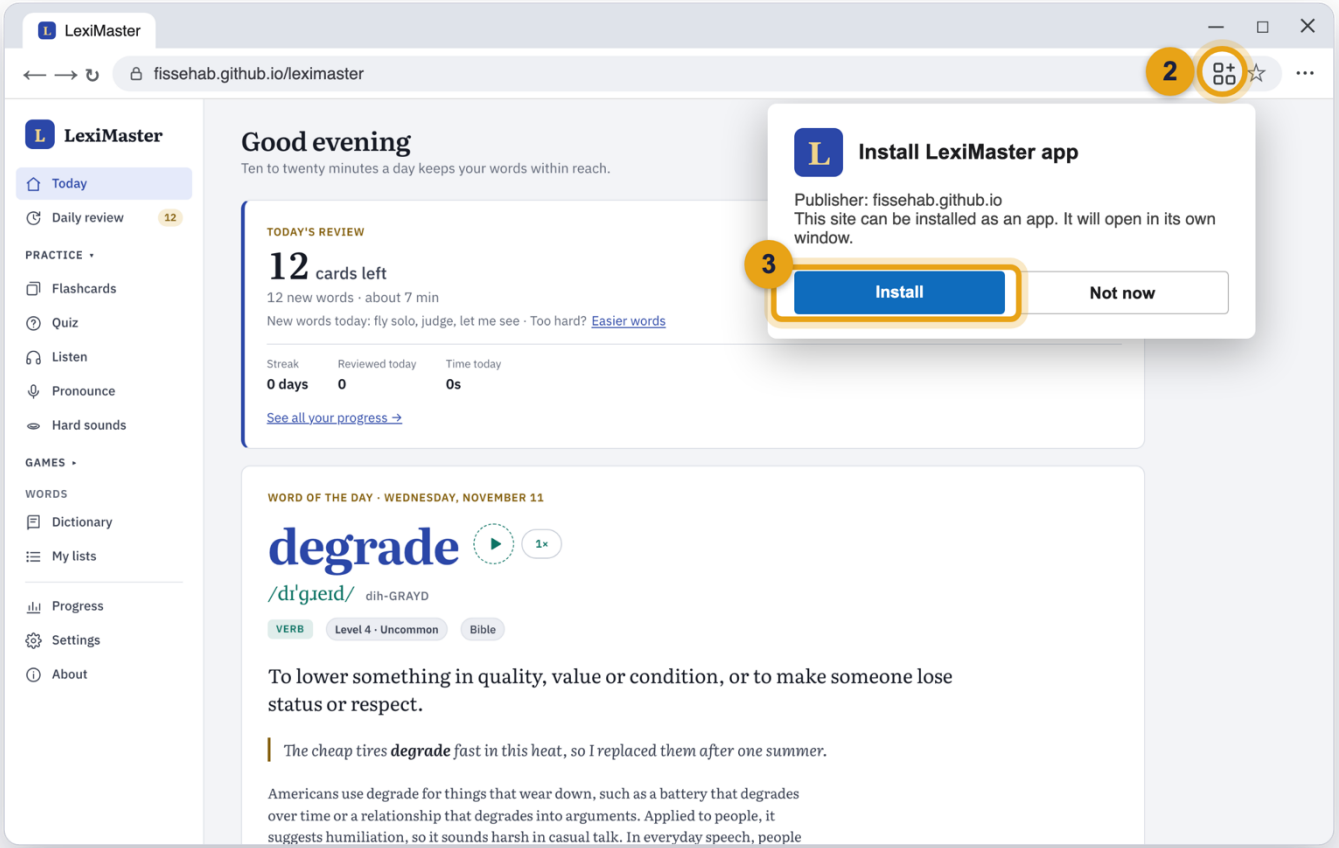

Illustration: the numbered circles match the steps. Chrome on Windows works like page 5.

What it looks like on a computer

LexiMaster opens in its own window. Its own Back and Forward buttons sit at the bottom left of the side menu (circled).

Mac: the icon sits in the Dock. To keep it there, right-click it → Options → Keep in Dock.

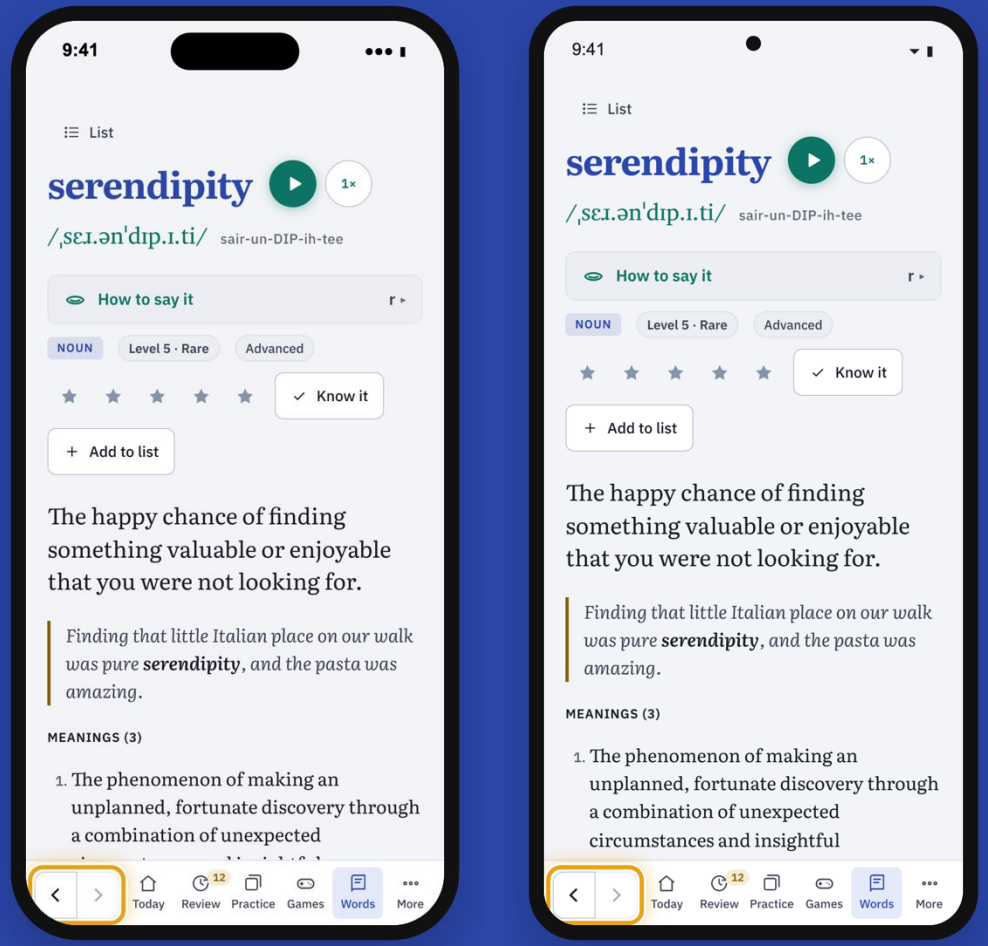

Windows: find it in the Start menu. Right-click the taskbar icon → Pin to taskbar.

02

On a phone

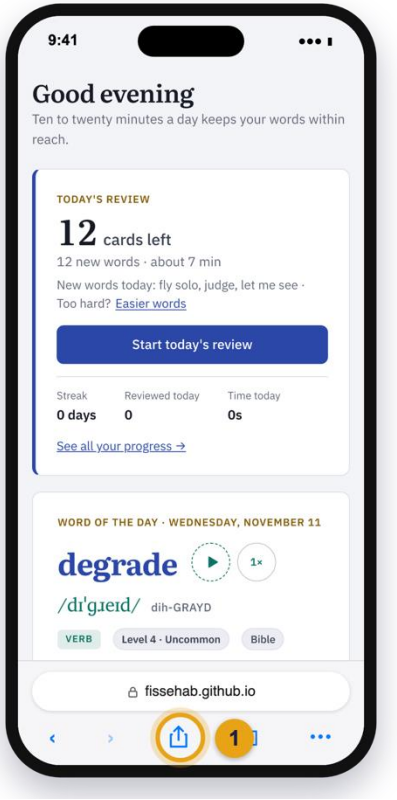

iPhone: add it from Safari. Android: install it from Chrome. The icon then sits on your Home Screen next to your other apps.

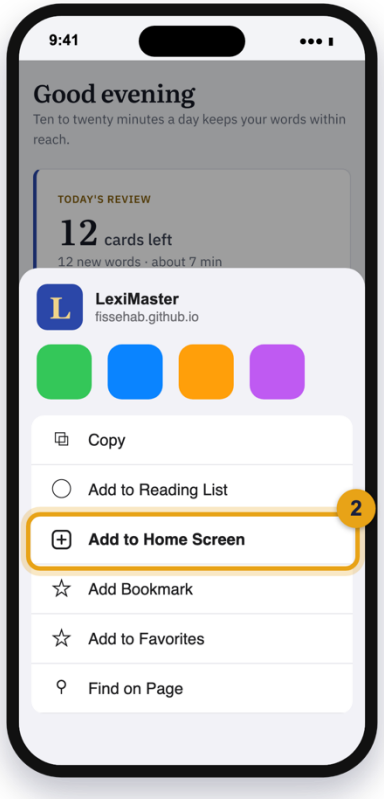

Confidential - Not for Public Consumption or Distribution

iPhone: add it from Safari

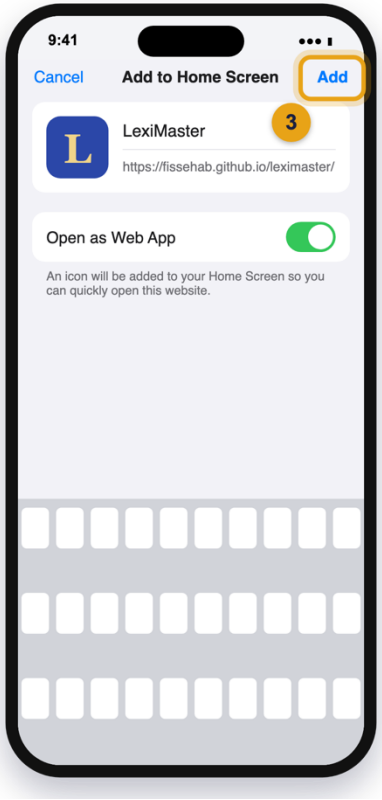

Open Safari (the blue compass) and go to fissehab.github.io/leximaster. Then:

1 Tap the Share button: a square with an arrow pointing up.

2 Scroll down and tap Add to Home Screen.

3 Leave “Open as Web App” on and tap Add.

4 The LexiMaster icon is now on your Home Screen.

iPhone: if your screen looks different

Newer iPhones (iOS 26)
The Share button is inside the ••• button at the bottom right of Safari. Tap •••, then Share, then View More if needed, then Add to Home Screen.

Chrome or Edge on iPhone
Tap the Share button next to the address bar, then Add to Home Screen. This needs iOS 16.4 or later.

Can’t see Add to Home Screen?
Scroll down the list. At the very bottom, tap Edit Actions to add it.

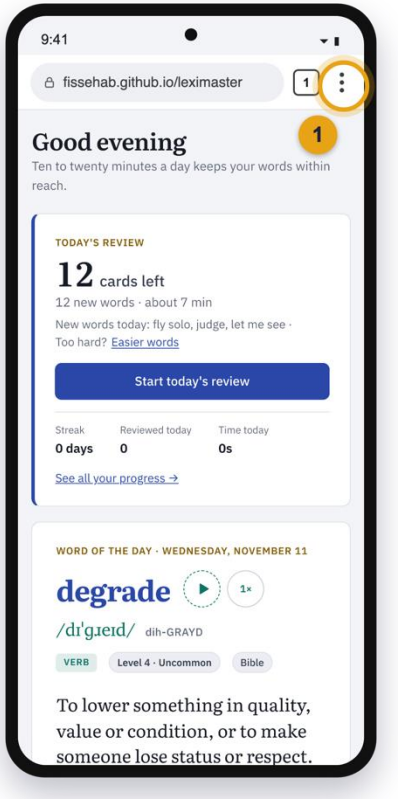

Opening it
Tap the LexiMaster icon. It fills the whole screen, without Safari’s address bar. Back and Forward are at the bottom left (circled).

Android: install it from Chrome

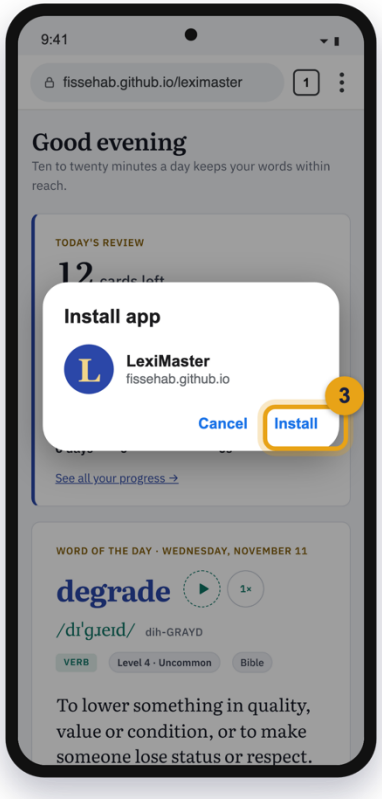

Open Chrome and go to fissehab.github.io/leximaster. Then:

1 Tap the menu: three dots at the top right.

2 Tap Add to Home screen (on some phones: Install app).

3 Tap Install. If asked, choose Install, not Create shortcut.

4 LexiMaster is on your Home screen and in your apps list.

Confidential - Not for Public Consumption or Distribution

Android: other browsers

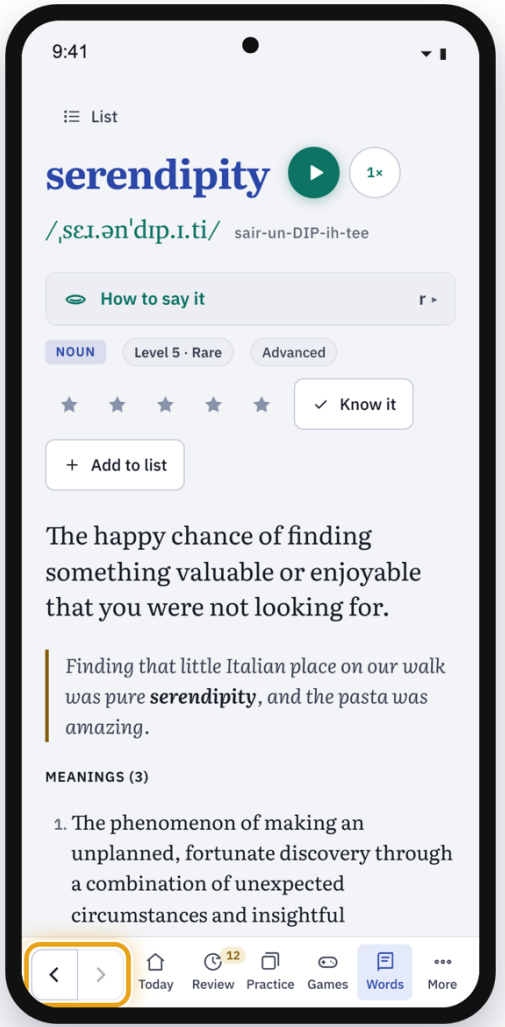

Other Android browsers can install it too. In the app, Back and Forward are at the bottom left (circled).

Samsung Internet
Tap the menu (three lines, bottom right) → Add page to → Home screen. Or tap the install icon in the address bar if you see one.

Firefox
Tap the menu (three dots) → Install, or Add to Home screen → Add.

Microsoft Edge
Tap the menu (three lines, bottom) → Add to phone → Install.

Chrome shortcut prompt
Some phones show a banner “Install LexiMaster” at the bottom. Tapping it does the same thing.

03

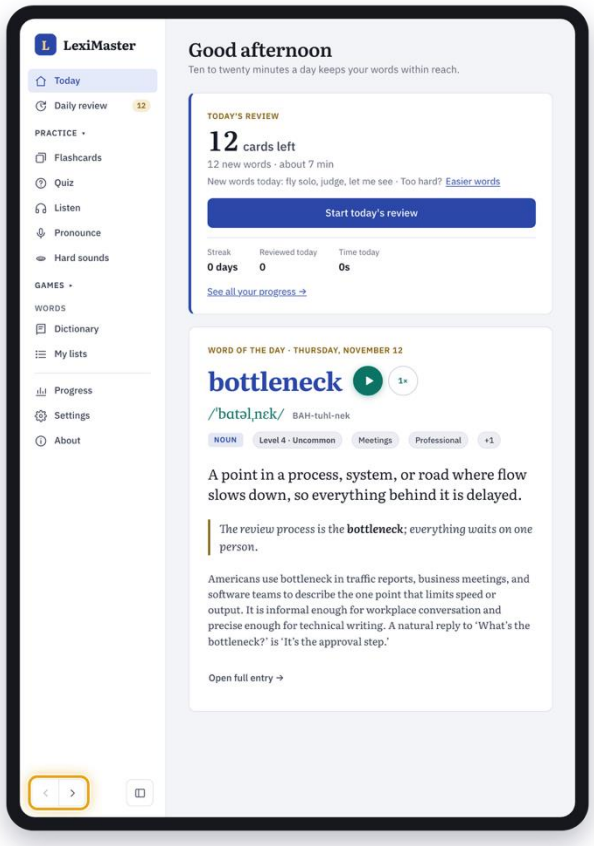

Tablets and more

iPad, Android tablets, Chromebooks and Linux: the same few taps, with a bigger screen.

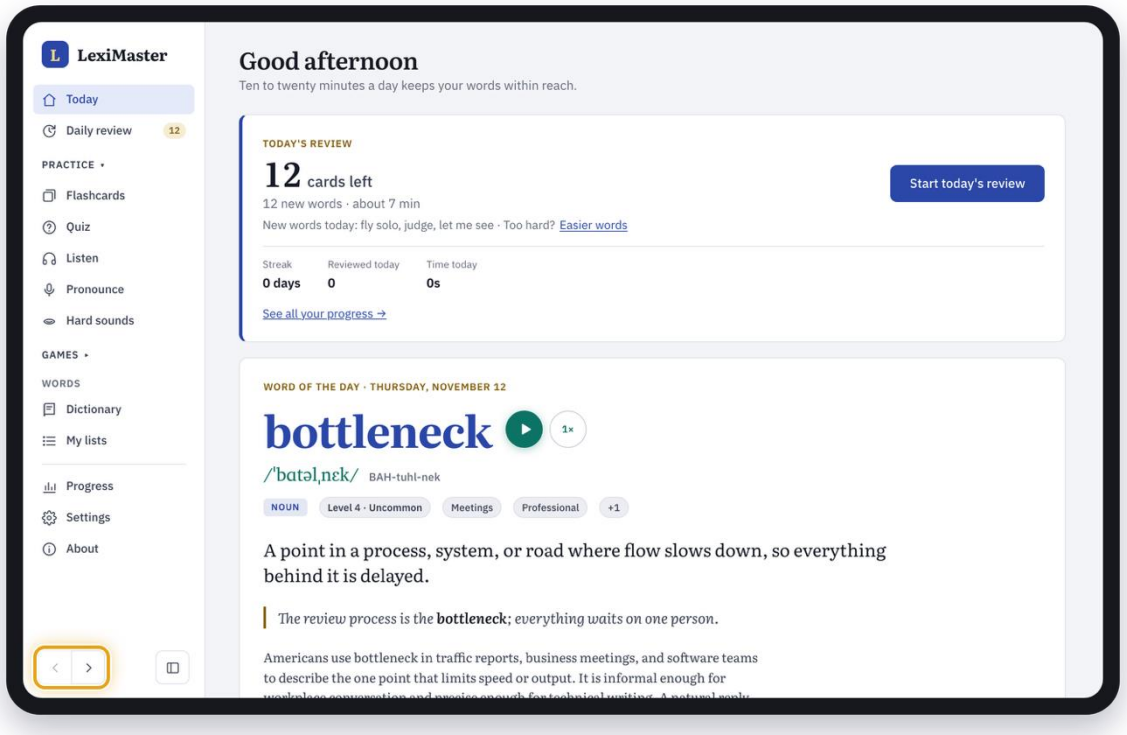

Confidential - Not for Public Consumption or Distribution

iPad and Android tablets

iPad (Safari)

1. Tap the Share button at the top right, next to the address bar.
2. Tap Add to Home Screen.
3. Tap Add.

Android tablet (Chrome): tap ⋮ at the top right → Add to Home screen → Install. Exactly as on an Android phone.

On a tablet LexiMaster shows the full side menu, like on a computer, with Back and Forward at its bottom left (circled). Turn the tablet sideways for the most room.

Other devices and browsers

Most modern browsers can install LexiMaster. One cannot.

Chromebook

Open Chrome, go to the site and click the install icon in the address bar → Install. It appears in your launcher.

Linux

Use Chrome, Chromium or Edge: install icon in the address bar → Install.

Brave, Opera, Vivaldi

These are built on Chrome. Look for the install icon in the address bar, or for Install in the main menu.

Firefox on a computer

Firefox on Mac, Windows and Linux cannot install web apps. Bookmark the page, or use Chrome, Edge or Safari.

Good to know after installing

Updates come by themselves

When a new version is ready, LexiMaster switches to it the next time you are on the Today screen. You never reinstall.

Use it without internet

Settings → Download for offline use saves every word on the device. Recordings play offline once you have heard them.

Back up your progress

Progress stays on each device; it does not sync. Settings → Export progress saves a file. Import progress on another device to continue there.

To remove it

Phone or tablet: press and hold the icon → Remove App or Uninstall. Computer: open LexiMaster, click ⋮ or ··· at the top → Uninstall. Safari Dock app: drag it from Applications to the Trash.

Don’t see Install or Add to Home Screen?

Almost always one of these. Fix it and try again.

You opened the link inside Facebook, Messenger, Instagram or WhatsApp
Those apps show web pages in their own small browser, which can’t install apps. Tap ••• or the compass icon → Open in Safari, Open in Chrome, or Open in browser.

You are in a private or incognito window
Installing is turned off there. Open a normal window and visit the site again.

You are using the wrong browser
iPhone and iPad: Safari works best. Android: Chrome. Computers: Chrome, Edge or Safari. Firefox on a computer can’t install apps.

It is already installed
The browser shows “Open in app” instead of Install. Look for the LexiMaster icon on your device.
